

FACT SHEET

Mara Engai Wilderness Lodge is nestled amongst pristine Kenyan Ravine forest on the Siria Escarpment. Overlooking the amazing Masai Mara National Reserve and Wildebeest Migration Route, with around 120km of unbroken views – it is simply breath-taking

LOCATION

Located on the edge of the Mara Triangle – the North-Western part of the Masai Mara National Reserve, Kenya, which is managed by the not-for-profit organisation The Mara Conservancy on behalf of Trans-Mara County Council (Trans Mara District). Divided from the rest of the Masai Mara by the Mara River, the Mara Triangle is less visited and less crowded, often with many more game animals grazing on the plains and between the volcanic hills that distinguish this corner of the Mara.

Home to all members of the “Big Five” (lion, leopard, African elephant, African buffalo, and black rhinoceros) as well as hippopotami, Nile crocodiles, hyenas, cheetahs, jackals, and bat-eared foxes.

MIGRATION

Around July-October each year, herds of Wildebeest migrate from the Serengeti plains in search of the fresh pasture of the Masai Mara. This Great Migration is one of the most impressive natural events worldwide, involving some 2,000,000 wildebeest, Thomson’s gazelles, Topi, elands, and zebras. These migrants are closely followed by hungry predators, lions, crocodiles and hyena. **Mara Engai Wilderness Lodge is advantageously positioned to provide front row seats to this, one of Mother Nature’s most spectacular shows on earth.**

HOW TO GET TO US

International flights into Jomo Kenyatta International Airport, Nairobi. Within Nairobi, transfer to Wilson Airport for a short internal flight to the Serena airstrip in the Masai Mara. Here you are met by a member of our team for the spectacular transfer and game drive to the resort.
